

ARK PEST CONTROL

Control of Substances Hazardous to Health (COSHH) Assessment – APC55

Product Name: *(Purchased product brand name)*

Reference No: 20.01.17

Romax Rat PC

Rev: 05.10.19

This CoSHH Assessment form is solely for purchased hazardous substances (e.g. Bleach). For the more complex hazardous substances use form FCA01.

Hazards identified on the container or Safety Data Sheet (SDS) (tick appropriate boxes)

										
√			√							

Hazard/Risks Identification:

Harmful if swallowed. May cause damage to organs through prolonged or repeated exposure.

Acute Tox. 4: H302; STOT RE 2: H373

Harmful if swallowed.

May cause damage to organs through prolonged or repeated exposure.

Because of antivitamin K properties of the active ingredient, absorption can inhibit blood coagulation and cause hemorrhagic syndrome.

In combustion emits toxic fumes

A brief description of how the substance is to be used:

Rodenticide.

Who is likely to be affected by the substance?

Employees	√	Visitors	√
Cleaners	√	Patients / Residents / Service Users / Clients	√
General Public	√	Contractors	√

Existing Controls (Provide a brief description of how the hazards are currently controlled. You may use the MSDS as a guide)

Workplace exposure limits: No data available, Conditions to avoid: Direct sunlight. Heat, Materials to avoid: Strong oxidizing agents. Strong acids, Haz. decomp. products: In combustion emits toxic fumes.

Appropriate engineering controls - Provide adequate ventilation.

Personal protection Keep away from food stuffs.

Eye/face protection Avoid contact with eyes.

Hand protection Suitable chemical resistant gloves are recommended for professional users.

Other skin and body protection Personal protective equipment for the body should be selected based on the task being performed and the risks involved.

Hygiene measures Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wash contaminated clothing before reuse.

Respiratory protection Provide adequate ventilation.

If splashing is likely to occur wear approved eye protection. If spray mists are likely, wear a suitable approved respirator. If skin contact is likely to occur wear rubber gloves and suitable impervious protective clothing. Use in a well ventilated area where possible. Always use good personal hygiene procedures when handling chemicals. Do not smoke

ARK PEST CONTROL

Control of Substances Hazardous to Health (COSHH) Assessment – APC55

eat or drink while handling this product. Wash hands, face and exposed skin after using, and before eating, drinking or smoking. Read the label before use. No exposure limits have been set for this material Suitable approved respirator if exposed to spray mists Rubber or plastic gloves If splashes are likely to occur, wear: goggles Impervious clothing, boots.

Personal Precautions: *Wear suitable protective clothing, gloves and eye/face protection.*

Environmental Precaution: *Prevent further leakage or spillage if safe to do so. Contain or absorb leaking liquid with earth or sand. Do not let product enter drains.*

Clearing up: *Soak up with inert absorbent material. Transfer to a suitable labelled container. Subsequently, clean spill area and any tools used with a suitable solution of caustic soda or soda ash and an appropriate alcohol (i.e. methanol, ethanol or isopropanol). Then wash with strong soap and water solution. Collect all washings for disposal.*

ARK PEST CONTROL

Control of Substances Hazardous to Health (COSHH) Assessment – APC55

Current storage arrangements and the quantity held in stock (*Consider the risk of fire when storing substances. The fire risk must be covered in a separate Fire Risk Assessment*)

*Store in a cool, well ventilated area. Keep container tightly closed. Avoid contact with water or humidity.
Handling requirements: Avoid the formation or spread of dust in the air. Ensure there is sufficient ventilation of the area.*

Current Spillage/Release Arrangements. (*You may use the SDS as a guide*)

*Do not attempt to take action without suitable protective clothing
Do not discharge into drains or rivers
Clean-up procedures: Transfer to a closable, labelled salvage container for disposal by an appropriate method*

Current Disposal Arrangements. (*You may use the SDS as a guide but also consider residual left in the containers*)

*Transfer to a suitable container and arrange for collection by specialised disposal company.
Waste code number: 20 01 19 Disposal of packaging: Clean with water. Treat the cleaning water following the above method for waste product. Dispose of as normal industrial waste.*

Can the substance be removed or replaced by a substance less hazardous? **YES** / NO (Circle as appropriate)

How often do employees and others come into contact with the substance?

Continual use		Frequent use	√	Minimal use	
---------------	--	--------------	---	-------------	--

Using this information, it is now possible to determine the level of risk from the substance and decide on the controls required to remove or reduce the risks.

Do you consider the current control measures suitable and sufficient? **YES** / NO (Circle as appropriate)

EMERGENCY ARRANGEMENTS:

Fire Measures: *What fire fighting measures are required to extinguish the substance? This information will be indicated on the safety data sheet if applicable.*

WATER	FOAM	DRY POWDER	CO2	WET CHEMICAL	NONE
	√	√	√		

What methods are used to fire fight without putting yourself at risk? Is suitable PPE required and if so what?

Suitable extinguishing media for the surrounding fire should be used. Water spray. Alcohol resistant foam. Dry chemical powder. Carbon dioxide. Do not use water jet.

First Aid Measures: *These are the first aid measures required should contact with the substance arise. It identifies each route of entry to the body and indicates what action must be taken should somebody become exposed. This information will be indicated on the safety data sheet.*

Route of entry:

First Aid Measures:

Inhalation:	Consult a doctor.
Absorption:	n/a
Ingestion:	Do not induce vomiting. Call a physician or poison control centre immediately. Wash out mouth with water. If swallowed, seek medical advice immediately and show this container or label.
Injection:	n/a
Skin Contact:	Wash immediately with plenty of soap and water. Wash with polyethylene glycol 400 if available, subsequently rinse with water. Get medical attention promptly if symptoms occur after washing.
Eye Contact:	Bathe the eye with running water for 15 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Get medical attention promptly if symptoms occur after washing.

Are the first aiders aware of the arrangements to deal with this substance in the event of a first aid emergency? **YES** / NO (Circle as appropriate)

Are there arrangements in place to deal with spillages? (eg is there an emergency procedure)? **YES** / NO (Circle as appropriate)

ARK PEST CONTROL

Control of Substances Hazardous to Health (COSHH) Assessment – APC55

If you consider the controls adequate then sign the CoSHH assessment off. If further controls are required then identify them below. This CoSHH assessment must be reviewed at least annually. The CoSHH assessment must also be reviewed if there are any changes in circumstances and following an accident or incident.

Extra controls required to reduce the risks.

<i>Immediate / special treatment: Treat Symptomatically Antidote Vitamin K1.</i>		
Action to be implemented by:	Target Date:	Completed Date:
n/a		

Initial Assessment Completed By:	Name: Andy Owden	Signature: <i>A. Owden</i>	Date: 05.10.19
