

ARK PEST CONTROL

Control of Substances Hazardous to Health (COSHH) Assessment – APC75

Product Name: *(Purchased product brand name)*

Reference No: 1

MURIBROM NON-TOX WRAPPED BLOCK

Rev: 15.05.19

This CoSHH Assessment form is solely for purchased hazardous substances (e.g. Bleach). For the more complex hazardous substances use form FCA01.

Hazards identified on the container or Safety Data Sheet (SDS) (tick appropriate boxes)

--	--	--	--	--	--	--	--	--	--

Hazard/Risks Identification:

<i>No specific uses advised against are identified.</i>

A brief description of how the substance is to be used:

<i>Scott, please complete</i>

Who is likely to be affected by the substance?

Employees	√	Visitors
Cleaners		Patients / Residents / Service Users / Clients
General Public		Contractors

Existing Controls (Provide a brief description of how the hazards are currently controlled. You may use the MSDS as a guide)

<p><i>Usage precautions; Wear protective clothing as described. Keep away from food, drink and animal feeding stuffs. Keep container tightly sealed when not in use. Advice on general occupational hygiene Wash promptly if skin becomes contaminated. Take off contaminated clothing. Wash contaminated clothing before reuse.</i></p> <p>Hazardous combustion products; Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours.</p> <p>Appropriate engineering controls; No specific ventilation requirements.</p> <p>Eye/face protection; No specific eye protection required during normal use. Large Spillages: Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible.</p> <p>Hand protection No specific hand protection recommended. Large Spillages: Wear protective gloves. Hygiene measures Wash after use and before eating, smoking and using the toilet. Do not eat, drink or smoke when using this product.</p> <p>Respiratory protection No specific recommendations. Provide adequate ventilation. Large Spillages: If ventilation is inadequate, suitable respiratory protection must be worn.</p> <p>Environmental exposure controls Not regarded as dangerous for the environment.</p>

Current storage arrangements and the quantity held in stock (Consider the risk of fire when storing substances. The fire risk must be covered in a separate Fire Risk Assessment)

<i>Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions. There are no known conditions that are likely to result in a hazardous situation.</i>

Current Spillage/Release Arrangements. (You may use the SDS as a guide)

ARK PEST CONTROL

Control of Substances Hazardous to Health (COSHH) Assessment – APC75

Avoid discharge into drains or watercourses or onto the ground. Reuse or recycle products wherever possible. Collect spillage with a shovel and broom, or similar and reuse, if possible.

Collect and place in suitable waste disposal containers and seal securely. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Dispose of contents/container in accordance with national regulations.

Current Disposal Arrangements. (You may use the SDS as a guide but also consider residual left in the containers)

General information The generation of waste should be minimised or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. Disposal methods Dispose of in accordance with applicable regional, national, and local laws and regulations. Dispose of Contaminated packaging as unused product unless fully cleaned.

Can the substance be removed or replaced by a substance less hazardous? YES / **NO** (Circle as appropriate)

How often do employees and others come into contact with the substance?

Continual use		Frequent use	√	Minimal use	
---------------	--	--------------	---	-------------	--

Using this information, it is now possible to determine the level of risk from the substance and decide on the controls required to remove or reduce the risks.

Do you consider the current control measures suitable and sufficient? **YES** / NO (Circle as appropriate)

EMERGENCY ARRANGEMENTS:

Fire Measures: What fire fighting measures are required to extinguish the substance? This information will be indicated on the safety data sheet if applicable.

WATER	FOAM	DRY POWDER	CO2	WET CHEMICAL	NONE
	√	√	√		

What methods are used to fire fight without putting yourself at risk? Is suitable PPE required and if so what?

Suitable extinguishing media. The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Protective actions during firefighting; Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out.

Special protective equipment for firefighters; Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets,

First Aid Measures: These are the first aid measures required should contact with the substance arise. It identifies each route of entry to the body and indicates what action must be taken should somebody become exposed. This information will be indicated on the safety data sheet.

Route of entry:

First Aid Measures:

General:	If in doubt, get medical attention promptly. Show this Safety Data Sheet to the medical personnel
Inhalation:	No specific recommendations. If throat irritation or coughing persists, proceed as follows. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if any discomfort continues.
Absorption:	n/a
Ingestion:	No specific recommendations. If throat irritation or coughing persists, proceed as follows. Rinse mouth. Get medical attention if any discomfort continues.
Injection:	n/a
Skin Contact:	No specific recommendations. Rinse with water. Get medical attention if any discomfort continues.

ARK PEST CONTROL

Control of Substances Hazardous to Health (COSHH) Assessment – APC75

Eye Contact:	<i>Remove any contact lenses and open eyelids wide apart. Rinse with water. Get medical attention if any discomfort continues.</i>
--------------	------------------------------------------------------------------------------------------------------------------------------------

Are the first aiders aware of the arrangements to deal with this substance in the event of a first aid emergency? **YES** / NO (Circle as appropriate)

Are there arrangements in place to deal with spillages? (eg is there an emergency procedure)? **YES** / NO (Circle as appropriate)

If you consider the controls adequate then sign the CoSHH assessment off. If further controls are required then identify them below. This CoSHH assessment must be reviewed at least annually. The CoSHH assessment must also be reviewed if there are any changes in circumstances and following an accident or incident.

Extra controls required to reduce the risks.

<i>None stated.</i>

Identify the persons who are required to implement the extra controls and set a realistic date for completion of these extra controls.

Action to be implemented by:	Target Date:	Completed Date:
