

# ARK PEST CONTROL

## Control of Substances Hazardous to Health (COSHH) Assessment – APC78

Product Name: (Purchased product brand name)

Reference No: 1.0

Talon Track Monitoring Bait A22373A

Rev: 24.08.17

This CoSHH Assessment form is solely for purchased hazardous substances (e.g. Bleach). For the more complex hazardous substances use form FCA01.

Hazards identified on the container or Safety Data Sheet (SDS) (tick appropriate boxes)

--	--	--	--	--	--	--	--	--	--

### Hazard/Risks Identification:

Not a hazardous substance or mixture.

### A brief description of how the substance is to be used:

Scott – Please complete

### Who is likely to be affected by the substance?

Employees	√	Visitors	
Cleaners		Patients / Residents / Service Users / Clients	
General Public		Contractors	

### Existing Controls (Provide a brief description of how the hazards are currently controlled. You may use the MSDS as a guide)

**Engineering measures** - Containment and/or segregation is the most reliable technical protection measure if exposure cannot be eliminated.

**Eye/face protection** - No special protective equipment required.

**Hand protection/Other skin and body protection** - No special protective equipment required. Select skin and body protection based on the physical job requirements.

**Respiratory protection** - No personal respiratory protective equipment normally required. When workers are facing concentrations above the exposure limit they must use appropriate certified respirator.

### Current storage arrangements and the quantity held in stock (Consider the risk of fire when storing substances. The fire risk must be covered in a separate Fire Risk Assessment)

**Requirements for storage areas and containers** : No special storage conditions required. Keep containers tightly closed in a dry, cool and well-ventilated place. Keep out of the reach of children. Keep away from food, drink and animal feeding stuffs.

**Advice on safe handling** : No special protective measures against fire required. Avoid contact with skin and eyes.

### Current Spillage/Release Arrangements. (You may use the SDS as a guide)

**Methods for cleaning up** : Contain spillage, pick up with an electrically protected vacuum cleaner or by wet-brushing and transfer to a container for disposal according to local regulations. Do not create a powder cloud by using a brush or compressed air. Clean contaminated surface thoroughly. Clean with detergents. Avoid solvents. Retain and dispose of contaminated wash water.

### Current Disposal Arrangements. (You may use the SDS as a guide but also consider residual left in the containers)

**Environmental precautions** : Do not flush into surface water or sanitary sewer system. If the product contaminates rivers and lakes or drains inform respective authorities.

# ARK PEST CONTROL

## Control of Substances Hazardous to Health (COSHH) Assessment – APC78

Can the substance be removed or replaced by a substance less hazardous?

YES / NO (Circle as appropriate)

How often do employees and others come into contact with the substance?

Continual use		Frequent use	✓	Minimal use	
---------------	--	--------------	---	-------------	--

Using this information, it is now possible to determine the level of risk from the substance and decide on the controls required to remove or reduce the risks.

Do you consider the current control measures suitable and sufficient?

YES / NO (Circle as appropriate)

### EMERGENCY ARRANGEMENTS:

**Fire Measures:** What fire fighting measures are required to extinguish the substance? This information will be indicated on the safety data sheet if applicable.

WATER	FOAM	DRY POWDER	CO2	WET CHEMICAL	NONE
✓	✓	✓	✓		

What methods are used to fire fight without putting yourself at risk? Is suitable PPE required and if so what?

Extinguishing media - small fires Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Extinguishing media - large fires Alcohol-resistant foam or water spray. Do not use a solid water stream as it may scatter and spread fire.

**First Aid Measures:** These are the first aid measures required should contact with the substance arise. It identifies each route of entry to the body and indicates what action must be taken should somebody become exposed. This information will be indicated on the safety data sheet.

Route of entry:

First Aid Measures:

General advice:	Have the product container, label or Safety Data Sheet with you when calling the emergency number, a poison control center or physician, or going for treatment.
Inhalation:	Move the victim to fresh air. If breathing is irregular or stopped, administer artificial respiration. Keep patient warm and at rest. Call a physician or poison control centre immediately.
Absorption:	n/a
Ingestion:	If swallowed, seek medical advice immediately and show this container or label. Do NOT induce vomiting
Injection:	n/a
Skin Contact:	Take off all contaminated clothing immediately. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash contaminated clothing before re-use.
Eye Contact:	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses. Immediate medical attention is required.

Are the first aiders aware of the arrangements to deal with this substance in the event of a first aid emergency? YES / NO (Circle as appropriate)

Are there arrangements in place to deal with spillages? (eg is there an emergency procedure)?

YES / NO (Circle as appropriate)

If you consider the controls adequate then sign the CoSHH assessment off. If further controls are required then identify them below. This CoSHH assessment must be reviewed at least annually. The CoSHH assessment must also be reviewed if there are any changes in circumstances and following an accident or incident.

**Extra controls required to reduce the risks.**

Specific hazards during firefighting : As the product contains combustible organic components, fire will produce dense black smoke containing hazardous products of combustion. Exposure to decomposition products may be a hazard to health.

Special protective equipment for firefighters : Wear full protective clothing and self-contained breathing apparatus.

Further information : Do not allow run-off from fire fighting to enter drains or water courses. Cool closed containers exposed to fire with water spray
