

ARK PEST CONTROL

Control of Substances Hazardous to Health (COSHH) Assessment – APC82

Product Name: *(Purchased product brand name)*

Reference No: 1

Cimetrol Super RFU

Rev: 19.05.2020

This CoSHH Assessment form is solely for purchased hazardous substances (e.g. Bleach). For the more complex hazardous substances use form FCA01.

Hazards identified on the container or Safety Data Sheet (SDS) (tick appropriate boxes)

										
				√						

Hazard/Risks Identification:

H410 Very toxic to aquatic life with long lasting effects
 P273 Avoid release to the environment.
 P391 Collect spillage.
 P501 Dispose of contents/ container in accordance with national regulations.

A brief description of how the substance is to be used:

Scott – Please complete

Who is likely to be affected by the substance?

Employees	√	Visitors	
Cleaners		Patients / Residents / Service Users / Clients	
General Public		Contractors	

Existing Controls (Provide a brief description of how the hazards are currently controlled. You may use the MSDS as a guide)

Engineering measures - Provide adequate ventilation. Observe any occupational exposure limits for the product or ingredients.

Eye/face protection – Do not spray near eyes or face. Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible.

Hand protection/Other skin and body protection – Avoid contact with skin. Chemical resistant gloves required for prolonged or repeated contact. Wear appropriate clothing to prevent repeated or prolonged skin contact.

Respiratory protection - Ensure adequate ventilation. If ventilation is inadequate, suitable respiratory protection must be worn.

Current storage arrangements and the quantity held in stock (Consider the risk of fire when storing substances. The fire risk must be covered in a separate Fire Risk Assessment)

Store away from incompatible materials. Store locked up. Keep only in the original container. Keep container tightly closed, in a cool, well-ventilated place. Keep containers upright. Protect containers from damage.

Current Spillage/Release Arrangements. (You may use the SDS as a guide)

Avoid discharge into drains or watercourses or onto the ground. Avoid discharge to the aquatic environment. Wear protective clothing as described. Clear up spills immediately and dispose of waste safely. Small Spillages: Collect spillage. Large Spillages: Absorb spillage with non-combustible, absorbent material. The contaminated absorbent may pose the same hazard as the spilled material.

Current Disposal Arrangements. (You may use the SDS as a guide but also consider residual left in the containers)

Collect and place in suitable waste disposal containers and seal securely. Flush contaminated area with plenty of water.

ARK PEST CONTROL

Control of Substances Hazardous to Health (COSHH) Assessment – APC82

Wash thoroughly after dealing with a spillage. Dangerous for the environment.

Can the substance be removed or replaced by a substance less hazardous?

YES / NO (Circle as appropriate)

How often do employees and others come into contact with the substance?

Continual use		Frequent use	√	Minimal use	
---------------	--	--------------	---	-------------	--

Using this information, it is now possible to determine the level of risk from the substance and decide on the controls required to remove or reduce the risks.

Do you consider the current control measures suitable and sufficient?

YES / NO (Circle as appropriate)

EMERGENCY ARRANGEMENTS:

Fire Measures: What fire fighting measures are required to extinguish the substance? This information will be indicated on the safety data sheet if applicable.

WATER SRAY	FOAM	DRY POWDER	CO2	CHEMICAL	NONE
√	√	√	√		

What methods are used to fire fight without putting yourself at risk? Is suitable PPE required and if so what?

This product is not flammable. Suitable extinguisher media for the surrounding area. Do not use water jet.

Advice for firefighters - Avoid breathing fire gases or vapours. Evacuate area. Keep upwind to avoid inhalation of gases, vapours, fumes and smoke. Ventilate closed spaces before entering them. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. Avoid discharge to the aquatic environment. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.

Special protective equipment for firefighters Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents.

First Aid Measures: These are the first aid measures required should contact with the substance arise. It identifies each route of entry to the body and indicates what action must be taken should somebody become exposed. This information will be indicated on the safety data sheet.

Route of entry:

First Aid Measures:

<i>General advice:</i>	If in doubt, get medical attention promptly. Show this Safety Data Sheet to the medical personnel. First aid personnel should wear appropriate protective equipment during any rescue.
<i>Inhalation:</i>	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if symptoms are severe or persist.
<i>Absorption:</i>	n/a
<i>Ingestion:</i>	Rinse mouth thoroughly with water. Get medical advice/attention if you feel unwell. Do not induce vomiting unless under the direction of medical personnel.
<i>Injection:</i>	n/a
<i>Skin Contact:</i>	Rinse with water.
<i>Eye Contact:</i>	Remove any contact lenses and open eyelids wide apart. Rinse with water. Get medical attention if any discomfort continues.

Are the first aiders aware of the arrangements to deal with this substance in the event of a first aid emergency? YES / NO (Circle as appropriate)

Are there arrangements in place to deal with spillages? (eg is there an emergency procedure)?

YES / NO (Circle as appropriate)

If you consider the controls adequate then sign the CoSHH assessment off. If further controls are required then identify them below. This CoSHH assessment must be reviewed at least annually. The CoSHH assessment must also be reviewed if there are any changes in circumstances and following an accident or incident.

ARK PEST CONTROL

Control of Substances Hazardous to Health (COSHH) Assessment – APC82

Extra controls required to reduce the risks.

None stated.

Identify the persons who are required to implement the extra controls and set a realistic date for completion of these extra controls.

Action to be implemented by:	Target Date:	Completed Date:
n/a		

Initial Assessment Completed By:	Name:	Signature:	Date:
